

Supplementary Figures

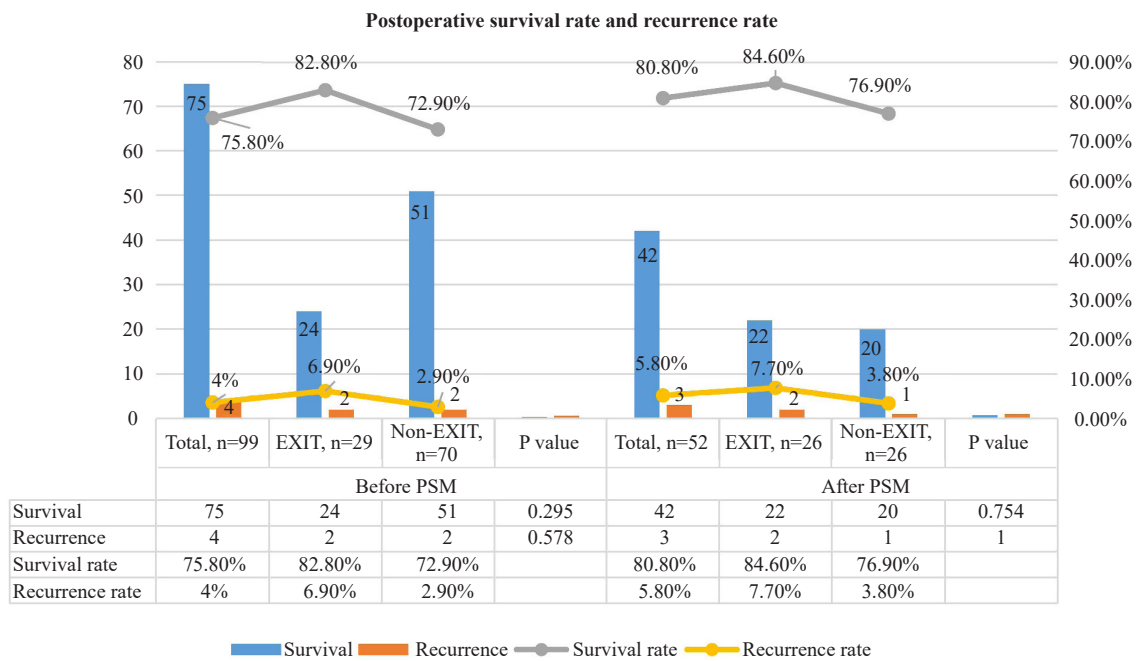

Supplementary Figure 1. Overall survival rate and recurrence rate.

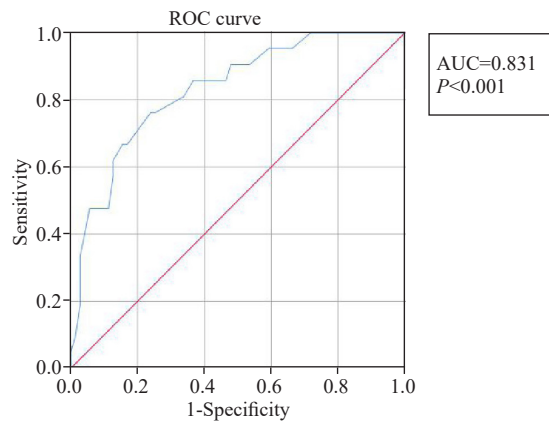

Supplementary Figure 2. ROC of logistic multivariable regression model of independent predictors of overall survival (Before PSM).

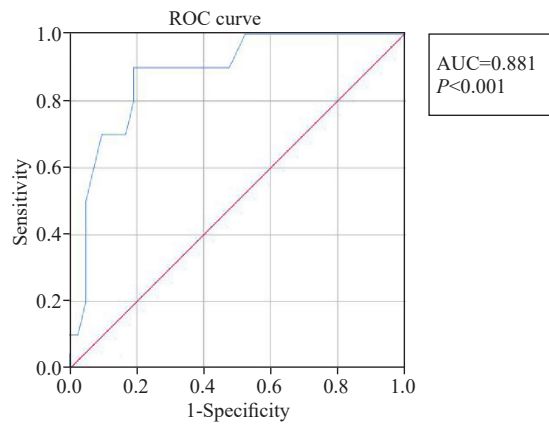

Supplementary Figure 3. ROC of logistic multivariable regression model of independent predictors of overall survival (After PSM).

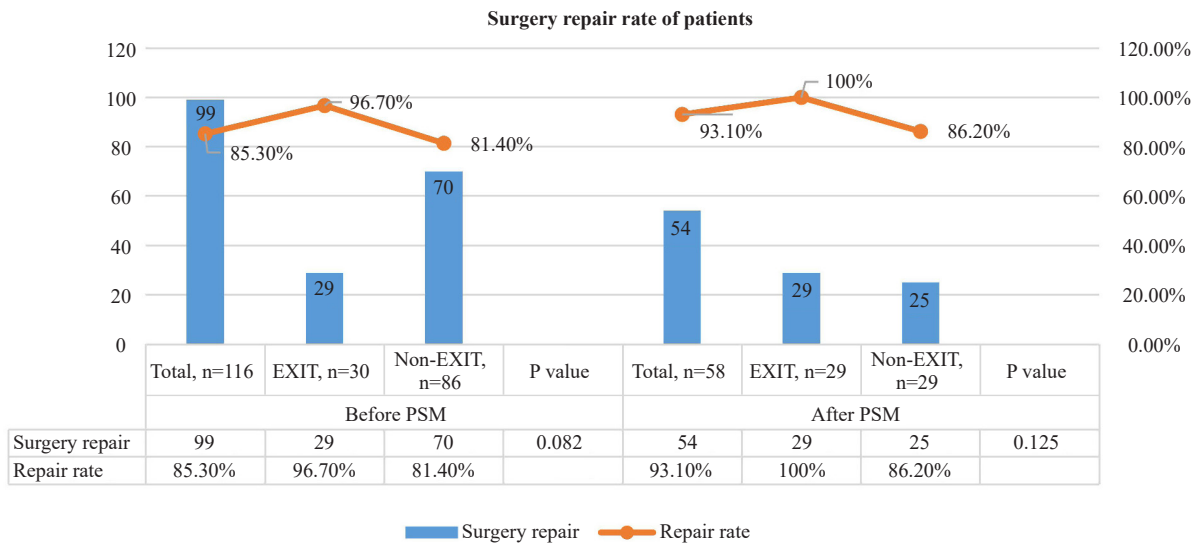

Supplementary Figure 4. Postoperative survival rate and recurrence rate.

Supplementary Figure 5. ROC of logistic multivariable regression model of independent predictors of postoperative survival (Before PSM).

Supplementary Figure 6. ROC of logistic multivariable regression model of independent predictors of postoperative survival (After PSM).

Supplementary Figure 7. Surgery repair rate of patients.
